

## Annual Report 2018

Dear PCCC Members,

We are excited to share with you a summary of the activities of PCCC Hong Kong (PCCCHK) in 2018.

### Membership

In the last letter sent out to our members, we informed you of our intent to streamline our membership database and to work with organizations supportive of our goals. By taking this course of action, we were able to achieve a more efficient use of time and effort to serve our members.

### CE Programmes Accreditation

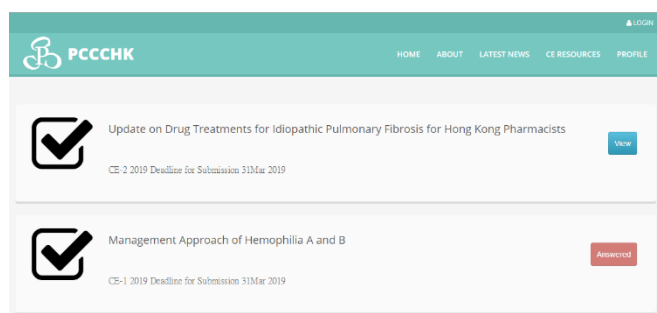

In 2018, our Committee foresaw the need for revising our accrediting scheme to allow a more flexible and standardized way of reviewing continuing education programmes. Since implementation we are pleased to inform you that our revised accrediting scheme has allowed more seminars, symposiums and workshops to be accredited and shared with our members.

Between 1 Jan to 31 December 2018, PCCC has accredited 32 programmes totaling almost 200 hours of continuing education. The diverse range of programmes has provided many opportunities for pharmacists in different sectors and specialties to learn about recent advances in their field.

PCCC seminar: Updates on the Evolving role of Biosimilars

### Communication Channel

We continue to utilize our website as a gateway for information and communication with our members.

If you have not done so already, we invite you to visit our website ([www.pccchk.com](http://www.pccchk.com)) to explore upcoming events, check your CE profile, and participate in the CE article and online quiz prepared by contributing authors of the Hong Kong Pharmaceutical Journal (HKPJ).

Our plans for 2019 remain consistent with our commitment towards providing quality continuing education to the pharmacists of Hong Kong. We believe through continuous learning can we elevate the standard of our profession.

To all our members, thank you for your support towards our committee. We hope you will continue to support our endeavors in the years to come.
