

Annual Report 2020

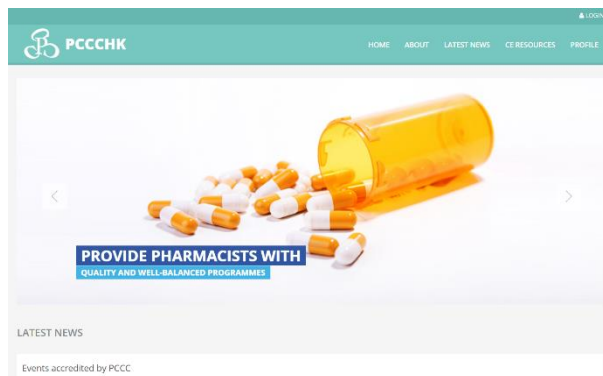

Dear PCCC Members,

I am excited to share with you a summary of the activities of PCCC Hong Kong (PCCCHK) in the past year. The year 2020 was certainly a challenging year for everyone. The COVID-19 pandemic affected us all in various aspects of our lives. While many scheduled onsite events were cancelled, we saw the resurgence of organizers quick to provide webinars and online modules to ensure opportunities to learn from experts will not be affected.

CE Programmes Accreditation

Between 1 Jan to 31 December 2020, PCCCHK accredited 27 programs totaling 177.25 hours of continuing education. The diverse range of programs has provided opportunities for pharmacists in different sectors and specialties to learn about recent advances across the medical field including cardiology, general medicine, endocrinology, pediatrics, respiratory, oncology, as well as clinical pharmacy practice and pharmacogenomics.

Communication Channel

As we continue to support the many continuing education programs available in Hong Kong, we hope you will continue to utilize our website as a gateway for information and communication regarding upcoming events. If you have not done so already, I invite you to visit our website (www.pccchk.com) to explore upcoming events, check your CE profile, and participate in the CE article and online quiz prepared by contributing authors of the Hong Kong Pharmaceutical Journal (HKPJ).

Our plans for 2021 remain consistent with our ongoing commitment towards promoting quality continuing education programs to pharmacists of Hong Kong.

Thank you for all your support towards our committee.

Regards,

PCCCHK
